Stuff for Baby Boomers

MARCH - MAY

Kia ora, and welcome to the first issue of H.I.P. Stuff for Baby Boomers, which aims to get local 'soon-to-be-seniors' involved in Hobbies, Interests and Passions. Targeting Rotorua district residents aged 50 and over, this exciting new Rotorua District Council initiative is to help baby boomers enjoy a proactive approach to aging.

One positive way to age actively is to get involved in new (or reconnect with former) hobbies, interests, clubs and organisations as retirement draws nearer. Strong connections such as these significantly enhance the quality of life as people age. Research studies have shown people who participate in activities with others, often enjoy the added benefit of improved health and well-being.

Providing residents with opportunities to be creative, to discover new things or to be active is a vital component of the Rotorua District 'Community Outcomes'. Community Outcomes are the goals people have for their community. For the Rotorua District these include; a learning community, a happening community, a safe and caring community, and a community with excellent facilities and services.

This new brochure is brimming with activities and courses to undertake; many of which are available at little or no cost. So whether it's using the internet to connect with family/whanau or grandchildren/mokopuna scattered around the country or globe, doing voluntary work, discovering and writing a family history, mastering Te Reo or learning to fly, use this publication to discover how to take a more active part in Rotorua's happening, learning and caring community.

While every effort has been made to ensure that the information contained in this publication was correct at the time of printing, Rotorua District Council does not accept responsibility for any effects arising from use of this information.

Discovery Options for 50s plus page 3 to 9

Creative Options for 50s pluspage 10 to 17

Active Options for 50s plus page 18 to 23

Game on
